I happen to know very well who Osman Pasha is, as I have corresponded with him for several years, and have received letters from him since he has been given command of a division of the Turkish army. Osman Pasha is an American, and a native of Hawkins county, Tennessee. His name is It. Clay Crawford. He was Colonel of a regiment of artillery during the late war between the States. He afterwards entered the ervice of the Liberal government of Mexico, and was made a General of division. He created considerable of a stir by the capture of lagdad, Mexico, passing his forces over the Rio Grande from the Texas shore. He finally quarreled with Juares, the Mexican President, and returned to the United States with a large farture. He resided for several years at a beautiful country seat on the Delaware river near Philadelphia. His restless disposition caused him to seek excitement, and he entered the service of the Sultan and commander of the Turkish army at Pleyna.
